

SAFE & HEALTHY SCHOOLS PROJECT

Did you know?

LGBTQ students face terrifying levels of bullying and harassment in our schools

More than 40% of our LGBTQ students have seriously considered suicide

Only one third of Florida school districts have policies to protect LGBTQ students

Florida's LGBTQ youth face enormous risks which greatly reduce their chance of success in school, including family rejection, bullying, physical/sexual assault, homelessness, substance abuse, and suicide.

We are proud to herald Equality Florida's "Safe and Healthy Schools Project" - a groundbreaking, one of its kind initiative that will shift the culture so that each of Florida's 67 school districts adopt comprehensive, nationally recognized best practices for meeting the needs of LGBTQ students.

For more information about Equality Florida's groundbreaking "Safe and Healthy Schools Project" contact Project Director De Palazzo at de@equalityflorida.org or go to EqualityFlorida.org/Safe_Schools
